

# Review of One Planet Development in Wales 2010-2022

This comprehensive report looks at how OPDs are helping to achieve the 7 well-being goals for Wales, including healthy and resilient communities, a thriving Welsh language, and innovative low carbon businesses.

The report identifies the key successes and challenges of this ground breaking Welsh planning policy and makes recommendations for future improvement.

Authored by the One Planet Council using data collected from 95% of current OPD sites. To be published September 2022.

## LARGE SCALE TREE & HEDGEROW PLANTING

48,194 trees and 9,930m of hedgerow planted in OPDs so far with many more to be planted

## WELSH LANGUAGE

75% of OPDs have children in Welsh medium schools in Welsh speaking areas 11% of OPDs surveyed include at least one fluent Welsh speaker

## FOOD GROWN

Food grown or raised on site have an average value of £2490 per household

# OPDs demonstrate the most sustainable form of living in Wales

Exemplars are leading the way for Wales to tackle climate change and meet its aspirations under the Future Generations Act 2015

The **One Planet Council** is an independent voluntary body which enables and promotes One Planet Development. This forward-thinking planning policy, adopted by the Welsh Government in 2011, provides a genuinely affordable and sustainable way for people to live and work on their own land, bringing social, economic and environmental benefits.
